**Get an OverDrive Account**
An OverDrive account is necessary to authorize, or register, your Adobe Digital Editions software and your eReader device. If you plan on reading library books on multiple devices, you must complete this step and the authorization process.
1. To get an OverDrive account, visit [www.overdrive.com/account/sign-up](http://www.overdrive.com/account/sign-up)
2. Use your Facebook account or email address to register.

**Install Software and Authorize Devices**
2. If you aren’t prompted to authorize ADE the first time you open it, you can go to Help > Authorize Computer to start the process manually.
3. In the “Computer Authorization” window, select OverDrive from the eBook Vendor drop-down menu.
4. Enter the email address and password for your OverDrive account, then select Authorize.
5. With Adobe Digital Editions still open, plug your Nook, Sony Reader, or Kobo into your computer with the USB cable.
6. After a few moments, a window will appear in Adobe Digital Editions prompting you to authorize your device.
7. Simply click authorize or activate.

**browse and borrow**

In your internet browser, go to [www.mymediamall.net](http://www.mymediamall.net). Library eBooks are not searchable from bn.com.

On the left navigation pane, click EPUB eBook (or another compatible format listed above).
